APPLICATION QUESTIONS

1. If you have not addressed this in your Letter of Interest, please explain how your qualifications and experience align with the job qualifications found in the Vacancy Announcement.

2. Symphony of the Redwoods is composed of both local musicians, who are available for rehearsals in the two weeks prior to performances, and also non-locals, who are present only for the concert weekend. Thus, there are only 2 rehearsals in which the full orchestra is present - a challenging situation for the conductor. In addition, the orchestra needs to continue to attract highly qualified, local and non-local members in spite of a very limited budget for their remuneration. Please discuss your approach and personal capacity to address these challenges.

3. Please discuss your experience, personal qualifications and commitment in dealing with the non-musical aspects of this position, including but not limited to fund raising, donor support and publicity.

4. If offered this position, could you commit to a three-year contract?

VIDEO SAMPLES

Please provide links and dates of capture of video samples (on YouTube, Vimeo, etc.) demonstrating 15-30 minutes of your recent work with an orchestra. Preferably, the video will represent at least two different musical styles, and will include excerpts from both performances and rehearsals. Videos should be shot from the orchestra’s vantage point facing the front of the conductor.
